Plastic Cable Clamp, 1/4" Dia, Smooth Edge, Fast Install, Screw or Nail Mount, UVB Black, 18/Bag

PPC-1525UVB

Gardner Bender Plastic Clamps are tough, durable, yet extremely lightweight and feature clean, smooth edges to minimize damage to cables. Our contractor-friendly design facilitates quick installations saving time and money. Clamps securely hold harnesses, cables and tubing up to 1/4" (6mm) diameter. Designed for use in construction, maintenance and assembly-line applications, control cabinets, panels and general applications. Black UVB clamps offer superior performance indoors and out. Working temperature range: -54 C (-66 F) to 170 C (340 F) Instructions: Position clamp at desired location, insert cable(s) or tube(s), fasten with screw or nail.

- Lightweight plastic construction provides resistance to high and low temperature extremes
- Clean, smooth edges for easy handling and to help prevent cable damage
- Durable, crack-resistant plastic withstands tough conditions at the jobsite
- Use to hold harnesses, cables and tubing (not included) in construction, maintenance and assembly-line operations
- Mounting holes provided for easy installation with a screw or nail (not included)
- Working temperature range: -54 C (-66 F) to 170 C (340 F)
- Black colored clip handles bundles up to 1/4" (6mm) diameter
- 18 Clamps per Package
